How to Assign a Loan

The Assign Loan feature allows TPOs, lenders and housing counselors to assign loans to participating lenders, wholesalers, mortgage service providers (MSPs), and housing counselors. Once a loan is assigned, it can be viewed and modified by the assigned organization. The assigning organization can no longer modify and can only view transactions previously submitted under their organization. There is always just one version of the loan with current data and LPA results.

The following process flow provides a summary view of the loan assignment process from a TPO to an applicable third-party.

Process

Note: Vertical revision bars " | " are used in the margin of this reference to highlight these new requirements and significant changes.

<p>5. Review the Feedback Certificate.</p>	<p>You have the option to select the Print icon to view and print the pdf, or select the Export icon to export the results. To view the Merged Credit Report or modify loan data, select the Quick Links slider to the left of the screen.</p>  <p>Note: If you modify loan data and resubmit the transaction to Loan Product Advisor the wholesaler may be charged a secondary use fee by the Credit Reporting Company (CRC) for merged credit file requests.</p>

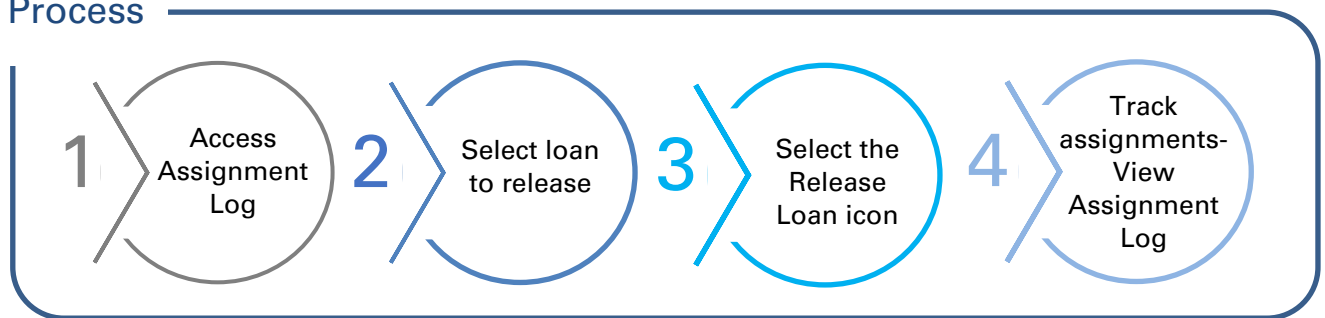

How to Release a Loan

The Release Loan feature allows any party that has been assigned a loan the flexibility to **release the loan back** to the party who assigned the loan. When the loan is released, the party who assigned the loan **regains the ability** to modify loan data and resubmit and/or reassign the loan as needed. To reassign a loan refer to the “How to Assign a Loan” section.

Note: To regain the ability to modify the loan data and/or reassign the loan the party who assigned the loan **must resubmit** the loan to Loan Product Advisor.

The following process flow provides a summary view of how to release a loan.
