

Fannie Mae and Freddie Mac  
**Uniform Appraisal Dataset Specification**

Appendix A: GSE Appraisal Forms Mapping

Document Version 1.5

---

Version Date: February 3, 2022

*This specification relates to the Uniform Mortgage Data Program, an effort undertaken jointly by Freddie Mac and Fannie Mae at the direction of their regulator, the Federal Housing Finance Agency.*

Please be advised that use of this tool to change the data sort or content of data from the Uniform Appraisal Dataset Specification (UAD Specification) could result in inaccurate information. Users should always refer back to the UAD Specification as the true and complete source of information for the UAD.

Document Version and Revision History		
Date	Version #	Description
December 16, 2010	1.0	Initial version
February 18, 2011	1.1	<ul style="list-style-type: none"> <li>- Corrected xPaths to the following:               <ul style="list-style-type: none"> <li>- Fannie Mae Form 1073 / Freddie Mac Form 465 - SortID 278</li> <li>- Fannie Mae Form 1075 / Freddie Mac Form 466 - SortID 280</li> <li>- Fannie Mae Form 2055 / Freddie Mac Form 2055 - SortIDs 152, 158, 160, 337, 338, 339, 340, 341, 342, 343, 344</li> </ul> </li> <li>- Added note to permit commas in money and numeric fields on PDFs</li> <li>- Added datapoint &lt;Appraisal Report Content Identifier&gt; to capture the UAD version. Additions included:               <ul style="list-style-type: none"> <li>- Fannie Mae Form 1004 / Freddie Mac Form 70 - SortID 519</li> <li>- Fannie Mae Form 1073 / Freddie Mac Form 465 - SortID 540</li> <li>- Fannie Mae Form 1075 / Freddie Mac Form 466 - SortID 535</li> <li>- Fannie Mae Form 2055 / Freddie Mac Form 2055 - SortID 501</li> </ul> </li> <li>- UAD Consolidated Schema Matrix</li> <li>- Corrected the field reference in the conditionality description for the following:               <ul style="list-style-type: none"> <li>- Fannie Mae Form 1004 / Freddie Mac Form 70 - SortID 108, 109, 111, 112, 114, 115</li> <li>- Fannie Mae Form 2055 / Freddie Mac Form 2055 - SortID 108, 109, 111, 112, 114, 115</li> </ul> </li> </ul>
August 11, 2011	1.2	<ul style="list-style-type: none"> <li>- Corrected xPaths to reflect PropertySequenceIdentifier = 0 in the following:               <ul style="list-style-type: none"> <li>- Fannie Mae Form 1004 / Freddie Mac Form 70 - SortID 384</li> <li>- Fannie Mae Form 1073 / Freddie Mac Form 465 - SortID 319</li> <li>- Fannie Mae Form 1075 / Freddie Mac Form 466 - SortID 317</li> <li>- Fannie Mae Form 2055 / Freddie Mac Form 2055 - SortID 368</li> </ul> </li> <li>- Corrected Form Section title in Fannie Mae Form 1075 / Freddie Mac Form 466 for SortIDs 232 through 299</li> <li>- Corrected PDF Display Format in the following:               <ul style="list-style-type: none"> <li>- Fannie Mae Form 1004 / Freddie Mac Form 70 - SortID 412</li> <li>- Fannie Mae Form 2055 / Freddie Mac Form 2055 - SortID 396</li> </ul> </li> <li>- Corrected xPaths to reflect <i>Management</i>TypeOtherDescription in the following:               <ul style="list-style-type: none"> <li>- Fannie Mae Form 1073 / Freddie Mac Form 465 - SortIDs 185, 186, 187, 188</li> <li>- Fannie Mae Form 1075 / Freddie Mac Form 466 - SortIDs 185, 186, 187, 188</li> </ul> </li> <li>- Updated field Length to 35 for the following:               <ul style="list-style-type: none"> <li>- Fannie Mae Form 1004 / Freddie Mac Form 70 - SortIDs 282, 284, 286</li> <li>- Fannie Mae Form 1073 / Freddie Mac Form 465 - SortIDs 371, 373, 375</li> <li>- Fannie Mae Form 1075 / Freddie Mac Form 466 - SortIDs 369, 371, 373</li> <li>- Fannie Mae Form 2055 / Freddie Mac Form 2055 - SortIDs 266, 268, 270</li> </ul> </li> <li>- Updated field length to 4000 for the following:               <ul style="list-style-type: none"> <li>- Fannie Mae Form 1004 / Freddie Mac Form 70 - SortID 456</li> <li>- Fannie Mae Form 2055 / Freddie Mac Form 2055 - SortID 440</li> </ul> </li> <li>- Updated Days On Market definiton for the following:               <ul style="list-style-type: none"> <li>- Fannie Mae Form 1004 / Freddie Mac Form 70 - SortIDs 41, 296</li> <li>- Fannie Mae Form 1073 / Freddie Mac Form 465 - SortIDs 42, 388</li> <li>- Fannie Mae Form 1075 / Freddie Mac Form 466 - SortIDs 42, 386</li> <li>- Fannie Mae Form 2055 / Freddie Mac Form 2055 - SortIDs 41, 280</li> </ul> </li> <li>- Corrected bracket in XPath on Fannie Mae Form 2055 / Freddie Mac Form 2055 - SortIDs 158, 160</li> <li>- Updated Field Length description in the Column Descriptions section</li> <li>- Updated some of the text in the Read Me section</li> </ul>
April 16, 2013	1.3	<ul style="list-style-type: none"> <li>- Added "Transmit" subject and comparable latitude and longitude mappings to the following:               <ul style="list-style-type: none"> <li>- Fannie Mae Form 1004 / Freddie Mac Form 70 - SortID 520-3</li> <li>- Fannie Mae Form 1073 / Freddie Mac Form 465 - SortID 541-4</li> <li>- Fannie Mae Form 1075 / Freddie Mac Form 466 - SortID 536-9</li> <li>- Fannie Mae Form 2055 / Freddie Mac Form 2055 - SortID 502-5</li> </ul> </li> <li>- Updated UAD Consolidated Schema Matrix to add Latitude/Longitude</li> </ul>
November 5, 2013	1.4	<ul style="list-style-type: none"> <li>- Updated Implementation Notes for Design (Style) in the Sales Comparison Approach to the following:               <ul style="list-style-type: none"> <li>- Fannie Mae Form 1004 / Freddie Mac Form 70 - SortIDs 261, 320</li> <li>- Fannie Mae Form 1073 / Freddie Mac Form 465 - SortIDs 350, 418</li> <li>- Fannie Mae Form 1075 / Freddie Mac Form 466 - SortIDs 348, 416</li> <li>- Fannie Mae Form 2055 / Freddie Mac Form 2055 - SortIDs 245, 304</li> </ul> </li> </ul>
November 5, 2013	1.4	<ul style="list-style-type: none"> <li>- Updated Implementation Notes for Garage/Carport in the Sales Comparison Approach to the following:               <ul style="list-style-type: none"> <li>- Fannie Mae Form 1004 / Freddie Mac Form 70 - SortIDs 280, 351</li> <li>- Fannie Mae Form 1073 / Freddie Mac Form 465 - SortIDs 369, 449</li> <li>- Fannie Mae Form 1075 / Freddie Mac Form 466 - SortIDs 367, 447</li> <li>- Fannie Mae Form 2055 / Freddie Mac Form 2055 - SortIDs 264, 335</li> </ul> </li> </ul>

## Read Me

This document addresses the Uniform Appraisal Dataset (UAD) and is one in a series of documents related to the UAD Specification developed by Fannie Mae and Freddie Mac (the GSEs). *Appendix A: GSE Appraisal Forms Mapping* (PDF version) illustrates how the appraisal data is supported within the corresponding appraisal eXtensible Markup Language (XML) file by providing field-level data mapping instructions for the following four GSE appraisal forms:

- Fannie Mae 1004/ Freddie Mac 70, Fannie Mae 1004 Hybrid/Freddie Mac 70H, Fannie Mae 1004 Desktop/Freddie Mac 70D
- Fannie Mae 2055/ Freddie Mac 2055
- Fannie Mae 1073/ Freddie Mac 465, Fannie Mae 1073 Hybrid/ Freddie Mac 465H, Fannie Mae 1073 Desktop/ Freddie Mac 465D
- Fannie Mae 1075/ Freddie Mac 466

Technology systems must support all of the data points defined in *Appendix A: GSE Appraisal Forms Mapping*. For additional information about the business and technical requirements, please refer to the *Uniform Appraisal Dataset Specification* and the other appendices.

Listed below are helpful hints and guidelines to keep in mind when referencing this Appendix.

- The information contained in this document is based on the Mortgage Industry Standards Maintenance Organization (MISMO®) *Valuation Response Version 2.6 Schema Errata 1* and the MISMO *Logical Data Dictionary Version 2.6 Errata 1*.
- Form Reference Numbers beginning with an "e", as in "e-21", are GSE extensions of the MISMO *Valuation Response Version 2.6 Schema Errata 1*.
- Fields in this Appendix are referenced using the format "Form Page-Form Reference Number". For example "1-7" refers to Form Reference Number 7 on Page 1 of the appraisal form. Refer to *Appendix C: Appraisal Form Field Map* for a listing of all Form Reference Numbers.
- The data in an appraisal XML file must pass certain data integrity rules as defined in the *Property Valuation Response v2.6 GSE Extension Schema*. The formats are predefined in the Column Description Tab, and any additional information is noted in the Implementation Notes. Please note that the XML file must include all data included within the PDF version of the appraisal report. Data may not be truncated within the XML file.
- The 'Allowable Values' in the Implementation Notes column represent the values that must be populated in the appraisal XML file.
- Address elements within this file must conform to *United States Postal Service Publication 28 Postal Addressing Standards* (USPS Pub. 28).
- A "UAD Requirement" or "UAD Instruction" in the Implementation Notes column of Appendix B specifies a reference to *Appendix D: Field Specific Standardization Requirement* where additional instructions or clarification for supporting the data point can be found.
- A number of the fields on the appraisal forms have been repurposed to capture additional information. For example, the Lender/Client Name field (field 6-22 in the Appraiser Certification Section) has been repurposed to capture the Appraisal Management Company Name. The definitions and XPath support this additional information.
- The PDF Display Format description in the Implementation Notes column explains how the information for that data point is represented on the PDF version of the appraisal form. Please note that commas are permitted in money and numeric fields ONLY on PDF forms. Additionally, please note that the form field length for PDF rendering must not exceed the allocated field length for the XML.
- Sort IDs 1 and 2 are not part of the appraisal form but are required for XML delivery because they include the Appraisal Form Number and the embedded PDF version of the form.

This specification relates to the Uniform Mortgage Data Program, an effort undertaken jointly by Freddie Mac and Fannie Mae at the direction of their regulator, the Federal Housing Finance Agency.

Column Name	Column Description
Sort ID	Represents a unique number assigned to the data point name which provides the ability to sort and display the data in the original order.
Form Page	Represents the page number on the appraisal form.
Form Reference Number	Represents the form reference number on the appraisal form.
Form Section	Represents the form section on the appraisal form.
Form Field Label	Represents the form field label on the appraisal form.
Data Point Name	Represents the name for a given data element/attribute. <ul style="list-style-type: none"> <li>• MISMO data point names were obtained from the MISMO Logical Data Dictionary (LDD) version 2.6.</li> <li>• Several data points were created as an extension. The extension data point names were defined by the GSEs and will not be available in the MISMO LDD.</li> </ul>
Data Point Definition	Represents the definition for the corresponding data point name. <ul style="list-style-type: none"> <li>• MISMO data point definitions were obtained from the MISMO LDD version 2.6.</li> <li>• The extension data point definitions were defined by the GSEs and will not be available in the MISMO LDD version 2.6.</li> </ul>
XPath	Represents the XPath used to navigate through elements and attributes in an XML document. The XPath includes the supported enumerated value for the corresponding data point when applicable.
Field Length	Represents the allocated field length for XML. The form field length for PDF rendering must not exceed the allocated field length for the XML.
Format	Unless otherwise noted, format field types supported are: <ul style="list-style-type: none"> <li>• <b>Boolean</b> - The boolean data type represents an attribute that always has the values of 'Y' or 'N' representing a 'Yes' or 'No' value. The Y or N values must be provided in upper case or the appraisal XML file will fail schema validation</li> <li>• <b>Date/Time</b> - The date/time data type represents a date only. The date must contain a dash (-) between the Year, Month, and Date – for example: 2010-03-25</li> <li>• <b>Enumerated</b> - The enumerated data type represents a list of predefined values</li> <li>• <b>Money</b> - The money data type represents whole numeric values only. The numeric value should not contain dollar signs (\$) or commas (,)</li> <li>• <b>Numeric</b> - The numeric data type represents a numeric value only and used for 'non-money' data. The numeric value should not contain commas (,)</li> <li>• <b>String</b> - The string data type represents character strings in an appraisal XML file and may contain a word, phrase, sentence or paragraph. Each string field has a maximum character limit specified. Refer to Appendix A or Appendix B for the field length allocated for the string data type.</li> </ul>
Implementation Notes	Provides instructions or clarification for supporting the data point.
Conditionality Description	Represents the criteria for the conditionality of the data points.
Data Field Conditionality	Represents the conditionality of the data point. Systems must support all of the data points defined in Appendix A: Appraisal Forms Mapping. The conditionality column will contain one of the three indicators: <ul style="list-style-type: none"> <li>• <b>Required (R)</b>: The data point must be included in the appraisal XML file.</li> <li>• <b>Conditionally Required (CR)</b>: The data point must be included in the appraisal XML file when a defined business condition exists. The conditionally required parameters are provided in the Conditionality Description column.</li> <li>• <b>Transmit (T)</b>: The data point must be supported. If populated by the appraiser, then the value must be included in the appraisal XML file.</li> </ul>
